

# OUT OF LAB CART-BASED SIM

*Skills Practice Delivered to You, Supported by Simulation*

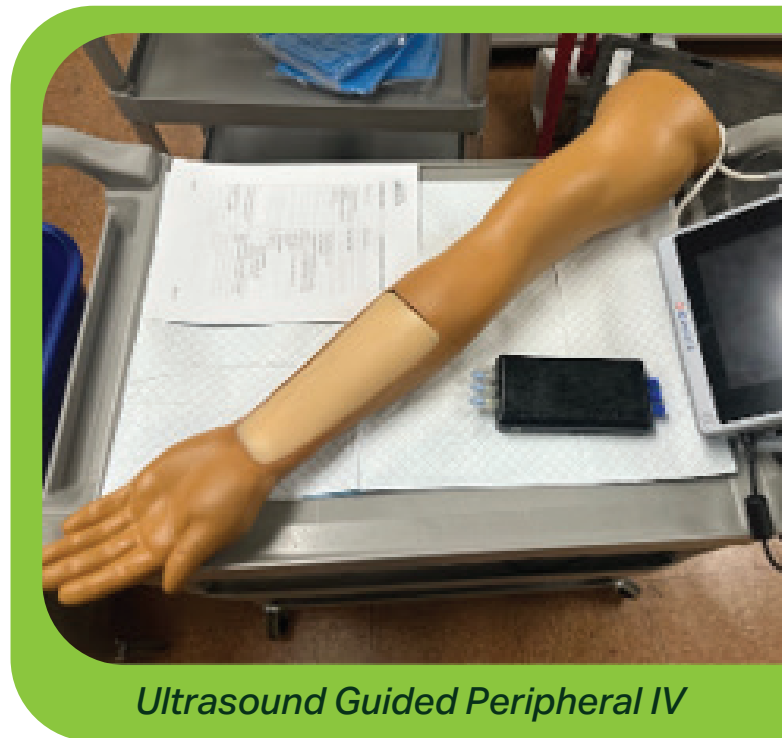

## WHAT IS CART-BASED SIMULATION?

A portable simulation equipped with trainers, necessary supplies for each procedure and standardized UAB Medicine learner and facilitator checklists.

## WHY USE CART-BASED SIMULATION?

- Aligns with UAB's safety and quality initiatives
- Supports clinical skills in a low-risk environment to refresh and learn high-impact skills by bringing deliberate practice directly to nursing units
- Helps improve care for patients
- Provides a safe, supportive space for identifying learning opportunities
